Talk About Yourself

Hello, My name is Giovane Leacina. I am from Içara, Santa Catarina and I live with my parents. My parents are Dejaime and Edna and my sister is Gisele. My sister is 18 years old and is studying Physical Education at UNESC. I am tall and a little shy. I am a Programmer. Today, I am gratuated in Computer sciences at UNESC. Furthermore, I like to play chess and games with my friends. When I was a teenager, I traveled to play tournaments of chess, such as The brazilian, OLESC, JASC and others.

Describe Your Routine

Nowadays, I Like to learn new technologies and to practice physical activities. During the week, I check my emails and worked at Cresol. Everyday at 12:00 A.M, I go to the gym and return to work. After work, I rest and do my homework. Some days, I Like to run, around 06: P.M. On Saturdays, I have English Classes at 10:00 A.M and after that, I rest to recover my energies. This month, I am focused on delivering new projects to the company, because it is my last month There. In the next month, I'll go to a new technology company. Furthermore, this month, I got back at playing soccer, after 2 years.

Analyze Your Priorities

At the moment, my priorities are to improve my skills as a programmer. As a developer, I am studying clean arch, Test Driven Development and design patterns. I have always known about this area, but I want to specialize with these skills. I too like to talk with my friends, go out with my girlfriend and to watch a movie/series. Even though I like to do physical activity, I don't like to wake up early to go to the gym. My mission statement is to have some management position in the area of technology.

Draw a Conclusion

I like my priorities and changes expected for my future. Considering my current schedule, are necessary changes for me to reach my goals, I need to dedicate more to class English, that is important for me to have more knowledge in my area.
